

## Munasser's Seasons K-W-L Chart

<u>K</u>	<u>W</u>	<u>L</u>
<p>Four seasons, all seasons have different climate.</p>	<p>Why do the four seasons have different climate?</p>	<p>Seasons- not every area has four seasons.</p>
<p>Summer is hot, winter is cold, fall is chilly and spring is mild.</p>	<p>Why do we have four seasons?</p>	<p>There are three climate zones they are polar, temperate, and tropical.</p>
<p>Some seasons can affect our clothing, food, jobs, and shelter.</p>	<p>Why do seasons last long?</p>	<p>The earth is tilted on its axis, which affects the seasons.</p>
<p>In summer, we can wear shorts and a t-shirt.</p>	<p>Why are the seasons called summer, fall, winter, and spring?</p>	<p>By using the internet, I learned how the four seasons truly looks like.</p>
<p>In fall, you can wear long pants and long sleeve shirts.</p>	<p>Why is spring the only season that has everything which is cold, hot, mild, dry, and wet?</p>	<p>The sun heats up the earth in many different ways.</p>
<p>In spring, you can wear shorts and a long sleeve shirt.</p>		<p>I learned how seasons affect our senses each year.</p>
<p>In winter, you wear mittens, hats, long coat, and a long sleeve shirt and a long pair of pants.</p>		<p>The earth orbits around the sun.</p>
		<p>I learned that temperate is mild, polar is cold, and tropical is hot; I live in the temperate zone!</p>
