

Name Katie Pagoda
Date 3-4-04
Hour 2nd

- 1. What conclusions can you draw about the relationship between age and voter participation?**

The older you get, the more voters there are except 65-74 year olds.

- 2. How might a presidential candidate use the graph that you have created?**

He might want to focus on the age groups that don't have as many voters.

- 3. Write a paragraph that summarizes the data presented in your graph.**

People who are age 18-24 don't vote as much as the others. They voted 32.3 percent, People age 25-44 voted 49.8. People age 45-64 voted 64.1 percent and people 65-74 voted 69.9 percent and people age 75 and over voted 64.9 percent.

- 4. Do you think that your paragraph from #3 or your graph is more effective at describing the data? Explain your answer.**

No because it isn't as visual as the graph.
